

Faced with the enormous problems in the economy & climate, let's take:

Small Steps to Sustainability

An Open Social Café
on Sustainability &
Technology

Want to save the world? Start small with the....

Last four steps

each WEDNESDAY in May - 6pm, Gallery 1, FACT, Wood St

6 May *Your Actions Count*
- What must we give up to meet the challenges of global warming? Is giving up the same as going without? Why should I care? What would I gain?

13 May *Permaculture* - Replace energy-intensive & labour-intensive processes with design-led sustainability. Come & find out more.

20 May *Community or business?* - Social enterprises combine business acumen & growth with social missions, bringing employment & green growth to your neighbourhood.

27 May *What next?* - Change: steps beyond simply giving.

Previous workshops have covered sustainable education; building online communities; low-carbon computing; organic vegetable growing; open money & exchange systems; creativity; & cutting the craft from your life.
